

Dear Parents /Guardians,

We are using a program called Home Access Center (HAC) for parents or guardians to see their child's grades, attendance and discipline. To start using HAC, go to our website, <https://dundeecommunityschools.org>, click on the "Parent" icon and then click on "Home Access Center".

Once there, choose "Dundee Community Schools" from the "Select a District" drop down menu, then put in your username and password.

To change your password and security information, you may go to the top right corner and hover over YOUR name. A drop down box will appear with 2 options: "My Alerts" and "My Account". Click on "My Account" and it will take you to your account details page (below) and you may modify your password and security questions there.

If you are having trouble with your user name or password, please contact your building office secretary.
